

DATA MART MANIFEST

RETAIL TRAINING DATASET

24 TABLES • 4 CONFORMED DIMENSIONS

Every table built to date, how it keys back to the four shared dimensions (**Customer, Product, Store, Date**), and which of the seven subject areas it lives in. F_SALES and F_POINT_OF_SALE_master are the spine — the only tables that touch all four hubs at once.

The full model: a central sales spine feeding four conformed hub dimensions, with seven subject-area zones keyed off those hubs. Dashed edges mark relationships that are matched by name rather than a real key.

 conformed hub / spine
 — foreign-key reference
 - - - loose / name-matched join
 ● legacy, not wired into the model

HUB CONFORMED DIMENSIONS

The four shared dimensions every subject area keys back to.

D_CUSTOMER

4,971

One row per customer.

PK Cust Key

Loyalty Tier

D_PRODUCT

1,096

One row per SKU. Carries the current Price.

PK Product Key

FK Vendor Key

D_STORE

201

200 stores + the Central Warehouse (Store Key 9999).

PK Store Key

Store Area

Store Type

D_DATE

1,827

Retail 4-5-4 fiscal calendar. Fiscal year starts the first Sunday of January.

PK Date Key

Fiscal Year/Qtr/Period

Prior Year Date

SPINE SALES & TRANSACTIONS

The only tables that touch all four hubs. Everything else is downstream of an order.

F_SALES

717,747

One row per order. Carries Channel Type (Retail/Web/BOPIS/BOSS).

PK Order Number

FK Cust Key

FK Store Key

FK Salesperson Key

FK Date Key

FK Transaction/Fulfillment Location Key

F_POINT_OF_SALE_master 4,584,628

One row per order line item (product within an order).

FK Order Number → F_SALES

FK Product Key

01 WORKFORCE & ORG

Commissioned sales roster, store leadership hierarchy, and daily labor hours — all keyed to Store.

D_SALESPERSON

1,617

Tiered roster (Cashier → Ambassador → Sr. Ambassador → Lead), tenure-banded commission.

PK Salesperson Key

FK Store Key

D_STORE_LEADERSHIP

223

Store Manager → AVP → RVP org hierarchy, salary + performance bonus.

PK Leadership Key

FK Store Key

FK Reports To Key (self)

D_EMPLOYEE

1,840

Unified view of the two rosters above, for headcount rollups.

PK Employee Key

FK Store Key

FK Reports To Key (self)

F_LABOR

304,400

Scheduled/actual hours and cost, one row per store per day.

FK Store Key

FK Date Key

02 INVENTORY & PROCUREMENT

Vendors, purchase orders, and the weekly-windowed inventory simulation across every store + the warehouse.

D_VENDOR

20

Suppliers with lead time, payment terms, rating.

PK Vendor Key

F_PURCHASE_ORDER

53,589

Order/expected/actual receipt, unit cost, on-time variance.

PK PO Number

FK Vendor Key

FK Product Key

Independent of F_INVENTORY_SNAPSHOT's internal reorder math — won't tie out exactly.

F_INVENTORY_SNAPSHOT

5,954,664

Weekly change-log: Qty On Hand / In Transit / Reorder Point, every store + warehouse × product.

FK Store Key

FK Product Key

Effective Start Date → D_DATE

F_INVENTORY_ADJUSTMENT

66,088

Shrinkage: theft, damage, expiration, cycle-count corrections.

FK Store Key

FK Product Key

Standalone ledger — not netted back into the snapshot above.

F_INVENTORY_ADJUSTED

1,095

Original single company-wide snapshot, no store, no date.

FK Product Key

Legacy — superseded by F_INVENTORY_SNAPSHOT, not wired into anything else.

03 TRAFFIC & MARKETING

Daily foot traffic and web visits by source, sized to imply real conversion rates against actual orders.

F_STORE_TRAFFIC

304,400

Daily visits per store; conversion vs. Retail orders lands 18-32%.

FK Store Key

FK Date Key

F_WEB_TRAFFIC

9,132

Daily visits by acquisition source (6 sources).

FK Date Key

Traffic Source

F_MARKETING_SPEND

9,132

Daily spend by source; CPC-based, ties to Web Visits.

FK Date Key

Traffic Source

04 MERCHANDISING & PRICING

Named promotions and the price-change history they drive.

D_PROMOTION

52

Seasonal campaigns + flash sales, 2021-2025.

PK Promotion Key

F_MARKDOWN

6,051

Price change-log per product, tagged to a promotion where applicable.

FK Product Key

FK Promotion Key

05 CUSTOMER EXPERIENCE

Returns and reviews, both downstream of a real order.

F_RETURNS

353,388

Channel-dependent return rates (Retail 6%, Web 14%, BOPIS/BOSS 10%).

FK Order Number → F_SALES

FK Product Key

F_PRODUCT_REVIEW

137,944

Always tied to a verified buyer.

FK Product Key

FK Cust Key

06 PLANNING

Sales targets for variance analysis against actuals.

F_BUDGET

9,833

Per store, per fiscal period; +3-8% YoY over the same period's actuals.

FK Store Key

Fiscal Year / Period → D_DATE

07 GEO REFERENCE

Mapping lookups, joined by name rather than a surrogate key.

D_GEOJSON_US_STATES

51

State boundary polygons for mapping.

State Code / Name

D_GEOJSON_US_COUNTIES

3,213

County boundary polygons for mapping.

County / State Name
